OFFICE OF LEGISLATIVE COUNSEL

Thursday - 3 August 1967

25X1

1. [REDACTED] Jim Wilson, House Committee on Science and Astronautics, called to say that Representative Olin Teague (D., Tex.) plans to make a speech on the floor concerning the Soviet space effort and will state that the Congressman has been kept informed by the intelligence community and that the Soviet space effort is as great or greater than that of the U.S. Wilson wanted to clear this statement for Teague from a security standpoint. After talking with Carl Duckett, I assured Wilson that a general statement of this nature would be all right.
